

More in the Bank, Less from the Environment™

Consumer Conservation Workshop

October 12th, 2011 – 1:00 pm to 5:00 pm

Pasadena Convention Center

7902 Fairmont Parkway, Pasadena Texas

Are you interested in learning how your behavior impacts the environment, your budget, and your personal satisfaction? Do you want to save money while improving the quality of your life and protecting the planet? In this unique workshop, you will:

- Learn ways to save money and increase your personal resilience for the future
- Learn which consumer behaviors have the biggest impact on our air, land, and water
- Discover alternatives that generate more value (i.e. savings, health, and satisfaction) and less waste (i.e. expenses, stress, and pollution)
- Practice powerful behavior-change techniques that create breakthrough and lasting results in the areas of life most important to you

Register now and join thousands of graduates who, on average, are saving \$2,700 each year and eliminating 5 tons of carbon dioxide emissions while living more fulfilled lives.

An employee from NASA Johnson Space Center saved \$8,000 from attending this workshop and when asked what she would do with the savings, she told us she would retire earlier!

Who Should Attend: Professionals, parents, families, and teachers who are interested in saving money, enhancing their personal life or organizational effectiveness, and protecting the environment will find this workshop useful. Classroom materials adapted to the Texas Essential Knowledge and Skills (TEKS) standards are available for teachers.

Registration (free)

To register, send your name and contact information to susan@nurturedworld.org or call Susan Roothaan at (512) 663-1496 or Karen Hollon at (713) 475-7221. Registration is required and seating is limited.

Susan Roothaan is the Executive Director of Nurtured World, a non-profit dedicated to a global change in thinking so that people live environmentally sustainable, financially successful and satisfying lives. She has over 25 years of experience in the environmental field and has taught thousands of individuals throughout the U.S and Mexico. She is a certified ISO14001 Lead Auditor, has a Masters in Chemical Engineering, and received the White House Closing the Circle Award for Greening Government.
